

Universities Management Framework

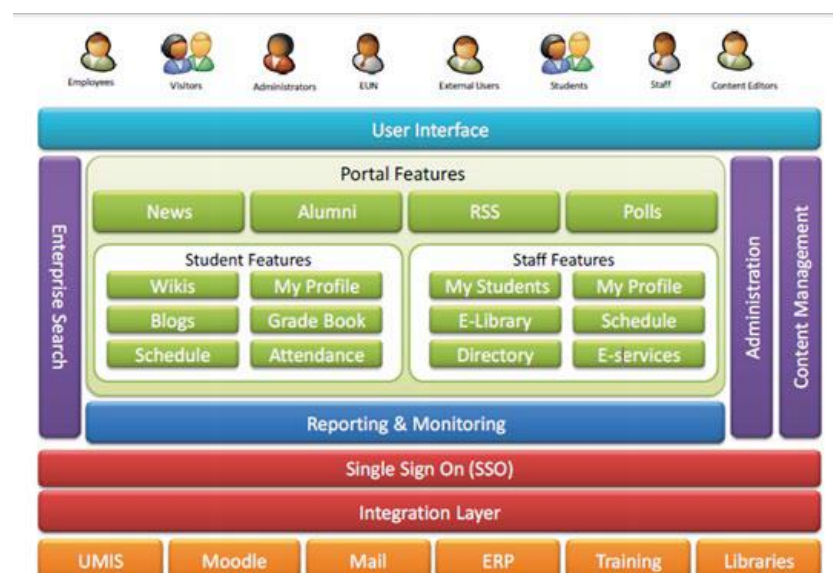

LINK Development Universities Management Framework offers universities and educational institutions the ability to manage their knowledge assets, automate all their services. The aim is to deliver to the right audience at right time, the optimum collaboration, knowledge-sharing and innovation virtual environment.

Framework Objectives & Features

LINK Development offers a multilingual Universities Management Framework that serves the following objectives:

- Enable Research through integration with digital library services and messaging tools
- Enable Teaching and Learning via Integration with Moodle, Classroom collaboration Workspaces, Forums for Students and Teaching Staff to interact and integrate with the Universities Management Information System
- Provide Universities and their various constituents with a portal platform to inform it's audiences through targeted channels and collect feedback from them
- Enable Staff through UMIS integration and providing them with the tools to share their research and their interests
- Enable Students through search and collaboration tools to access the information that is made available through the portal and to manage their curricular and extracurricular activities through the portal
- Enable the Universities through advanced usage monitoring and tracking tools to assess and enhance the portal's impact on the constituents

- About the College
- College Organizational chart
- Academic Programs
- Admission
- News
- College Resources
- College Communities
- Enterprise Calendar
- Related links
- Staff List
- Departmental Sub Sites
- College Research Areas
- Search
- Current Students List
- Alumni
- Contacts

Department Workspace

- Information about the department
- Department organizational chart
- Admission Rules
- Teaching Staff
- Department Sections
- Research Areas
- Courses

Students Union Workspace

- News
- Announcements
- Alerts and Notifications
- RSS feeds
- Wikis
- Blogs
- Discussion Forums
- Members List

Course Workspace

- Course time table
- Announcements
- Teaching staff
- Assignments
- Document
- Discussion Forums
- Wikis
- References and Material
- Examinations

Sharing

For Staff:

The Universities Management Platform serves the universities staff through the following features and functionalities offered.

Staff Workspace

Each teaching staff member has his own workspace which contains his profile and information. This workspace contains two different sections as follows:

The public section contains:

- Member contact information
- Information about his research areas
- List of the certificates and scientific degrees
- List of conferences and workshops

The private section can contain many things such as:

- Alerts and Notifications
- Staff member schedule
- Workspace where he can store his work and documents
- Personalized news and information retrieved from different sources, external or internal, via RSS feeds
- A link to his email solution
- Different links to his courses homepages
- Students' Directory
- Staff Directory
- E-services
- My services:
 - Check my ID number
 - Order an ID card
 - Check all the rules, regulations
 - Upload Course Grades
 - View Balance
 - View Reports

For Students

The universities platform serves universities students (undergraduates, graduates and Alumni) through the following features:

Students Workspace

The solution provides different features and services for all the students according to their type. The students' database is imported from the MIS and categorized as follows:

Under graduate students

The public section contains:

- Student department, academic year, section, major
- Committees membership and activities
- Contact information

The private section incorporates:

- Alerts and Notifications
- Semester schedule
- Workspace where he can store his assignments and documents
- Personalized news and information retrieved from different sources, external or internal, via RSS feeds
- A link to his email solution
- Different links to his courses homepages
- Students' Directory
- Staff Directory
- E-services
- My Services:
 - Check my ID number
 - Check all the rules, regulations
 - Add/ drop a course (for elective courses)
 - Apply for department
 - Get my group/section number
 - My grade book
 - My attendance
 - My Siting number
 - Order an ID card

Post graduate students

Public section:

- Student Thesis and research area
- Contacts Information

Private section:

- Alerts and Notifications
- Semester Schedule
- Documents Workspace
- Personalized news and information
- Link to emails solutions
- Links to courses workspaces
- Students Directory
- My Services
 - Check ID
 - Rules and Regulation
 - Students Directory
 - My Grade book
 - My Attendance
 - My Schedule
 - My Seating Number
 - Order an ID
 - Supervisors
- Staff Directory
- E-Services

Alumni

One of the major benefits of this section is the ability to track all the university graduates and to get an insight look on the number of unemployed graduates which can help in generating reports and also can be integrated with the career section of the portal.

The alumni members also have a link to some E-services offered by the portal.

Universities Recruitment Center

- Build Resumes
- Search for jobs
- Get Training
- Register for Career training events
- Get Career Consultation

The center enables companies to:

- Post Vacancies
- Search for Candidates
- Schedule Interviews
